

Course Goal & Instructor

The purpose of this course is to prepare you to think, diagnose and treat patients with skills and techniques provided by Applied Kinesiology. The format of this course will be fun, intense, detailed, and will include plenty of workshops.

The human body has a unique way of expressing itself and by learning to understand the language, along with standard procedures, a correct diagnosis and treatment can be made.

Bruce Shin DC, DIBAK

Diplomate, International Board
of Applied Kinesiology

Dr. Bruce Shin graduated from Cleveland Chiropractic College, Los Angeles and then went on to receive his Diplomate in AK. He is an active member in the International College of Applied Kinesiology serving on both the International Educational Council and the International Board of Examiners. He has also served on the Curriculum Committee for AK. Some of his post-graduate educational techniques come from studying: Total Body Modification (TBM), Sacral Occipital Technique (SOT), Network Spinal Analysis (NSA), Homeopathy, Neuro – Emotional Technique (NET), Gonstead, Reiki, Natural Healing Seminars (NHS), Behavioral Kinesiology (BK), Clinical Kinesiology (CK), Neurology, etc. His 18 years of professional practice has taught him many great principles and has only embraced his passion for AK and chiropractic to another level. Dr. Shin has taught courses for AK in Los Angeles, Orange County, and San Diego and is adjunct faculty to Logan College of Chiropractic Post Graduate Department. His private practice is in Temecula, CA.

Here's what some doctors have to say
about the course:

"Dr. Shin is a fantastic and dynamic instructor of AK and we recommend every doctor to take this course! This will help remove doubt from your practice."

-Scott Walker, DC (Founder of NET)
San Diego, CA

"It has been an amazing journey to learn AK from Dr. Bruce Shin. AK has opened up a lot of doorways for me to better understand the art of healing from broader perspectives of Structure, Biochemistry, and Emotional health. Dr. Shin is an inspiring teacher, doctor, and healer who introduces AK to students and doctors in a practical, lively, and interactive way. He has encouraged doctors to "think" more before "doing" more. I found this seminar an essential experience to my chiropractic education. Not only has this seminar helped me to further integrate my existing knowledge, but it also helps me to apply a greater diversity of treatment in a logical manner. I strongly recommend every student and doctor to attend the AK class with Dr. Shin!"

-Jeffrey Choi, LACC (Certified)
Los Angeles, CA

"Dr. Bruce Shin's Applied Kinesiology Course was the pivotal moment in my education where I shifted from a symptom chaser to being able to find and handle the cause of a patient's problems. It's a must for someone looking to take their healthcare to the next level."

-Benjamin Horning, DC (Certified)
Los Angeles, CA (SCUHS GRAD)

"Applied Kinesiology is an incredible blend of multiple foundational aspects of healthcare; a brilliant combination with immediate feedback and insight into the patient's present condition. Dr. Shin's mastery of AK has him communicating concepts with ease and flow. Peek into this and you will never be the same!!"

-Staysea Sumner, L.Ac.
Redondo Beach, CA
